

Conditional Sections

<<cs_ starts a conditional section
<<es_ ends a section

This line only appears in the final document if **sampleValue1** is set to “**true**”.

The numbering of items in the list adjusts automatically:

1. RED
2. GREEN
3. BLUE

Any expression that returns a true/false value can be used when creating conditional sections

This line only appears in the final document if **sampleValue3** is equal to the number **7**.

This line only appears in the final document if **sampleValue4** is equal to the number **frog**.

This line only appears in the final document if **sampleValue1** or **sampleValue2** is **True**.
